

most useful in this analysis, they should be submitted in writing before December 24, 1998.

The Forest Service and BLM will be joint lead agencies for this analysis. The two agencies will consult with the U.S. Fish and Wildlife Service and National Marine Fisheries Service pursuant to the Endangered Species Act. Other Federal agencies, such as the Pacific Northwest and Pacific Southwest Research Station, Bureau of Indian Affairs, National Park Service, Environmental Protection Agency (EPA), U.S. Army Corps of Engineers, Natural Resources Conservation Service, the U.S. Geological Survey Biological Resources Division, EPA Research Laboratory, and Tribal, local, and state governments will also be involved.

The responsible officials for NFS lands will be the Regional Forester, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208 and the Regional Forester, Pacific Southwest Region, 630 Sansome Street, San Francisco, CA 94111. The responsible official for public lands administered by the BLM will be the State Director for Oregon and Washington, P.O. Box 2965, Portland, Oregon 97208 and the State Director for California, 2135 Butano Drive, Sacramento, CA 95825.

The draft EIS is expected to be filed with the EPA approximately February 1999 and will be available for public review at that time. The comment period on the draft EIS will be 90 days from the date the EPA publishes the notice of availability in the **Federal Register**.

The Forest Service and BLM believe it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft EISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 533 (1978). Also, environmental objections that could be raised at the draft EIS stage may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is important that those interested in this proposed action participate by the close of the 90-day comment period on the draft EIS so that substantive comments and objections are made available to the Forest Service and BLM at a time when the agencies can meaningfully consider substantive

comments and objectives and respond to them in the final EIS.

To assist the Forest Service and BLM in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of NEPA at 40 CFR 1503.3 in addressing these points.

It is expected that the final EIS will be filed with the EPA approximately October 1999. There will be two Records of Decisions issued; one for NFS lands and one for BLM public lands in Oregon, Washington and California. The decision for National Forest System Lands will be subject to Forest Service appeal regulations (36 CFR 217). The decision in regard to lands managed by the BLM would be subject to the protest procedures in BLM's planning regulations (43 CFR 1610.5-2).
